ABOUT ME

Self-taught developer with hands-on experience in Python, JavaScript, and terminal-based workflows. Passionate about building automation tools, AI-powered applications, and working with CLI environments. Comfortable designing practical technical scenarios and creating structured evaluation data. Strong problem-solving skills and experience working independently on remote projects.

PROJECTS

Ai Document Chatbot

Built a RAG-powered chatbot using Python + Streamlit + Claude API. Users upload PDF/TXT/DOCX and ask questions — answers are grounded in the document content.

Tech: Python, Streamlit, Claude API, Sentence-Transformers, FAISS

Auto-Apply Bot

Developed a Python bot that reads job listings from Excel and automatically sends personalized cover letters via email using Claude API.

Tech: Python, Claude API, SMTP, Excel automation

n8n Automation Workflow

Built a WhatsApp AI chatbot with RAG system using n8n, Qdrant vector database, and Hugging Face embeddings. The bot answers user questions based on uploaded documents.

Tech: n8n, Qdrant, Hugging Face, Google Drive API

Sales Follow-Up Agent

Designed an AI agent that analyzes leads, prioritizes follow-ups, and generates personalized messages using Claude API.

Tech: Python, Claude API, Google Sheets

WORK EXPERIENCE

Freelance Developer

(Self-employed | Jan 2026 – Present)

- Built custom AI applications for document processing and sales automation
- Developed workflow automations using n8n for business clients
- Designed CLI-based tools for data processing and lead generation

E-commerce Admin & Marketing

Luna Lumina | Jun 2024 – Aug 2025

- Managed online stores on Etsy & Fiverr, increased sales from \$250 to \$3,000+/month
- Created promotional content and analyzed sales performance
